Anatomy of a chart

GENERAL STRUCTURE

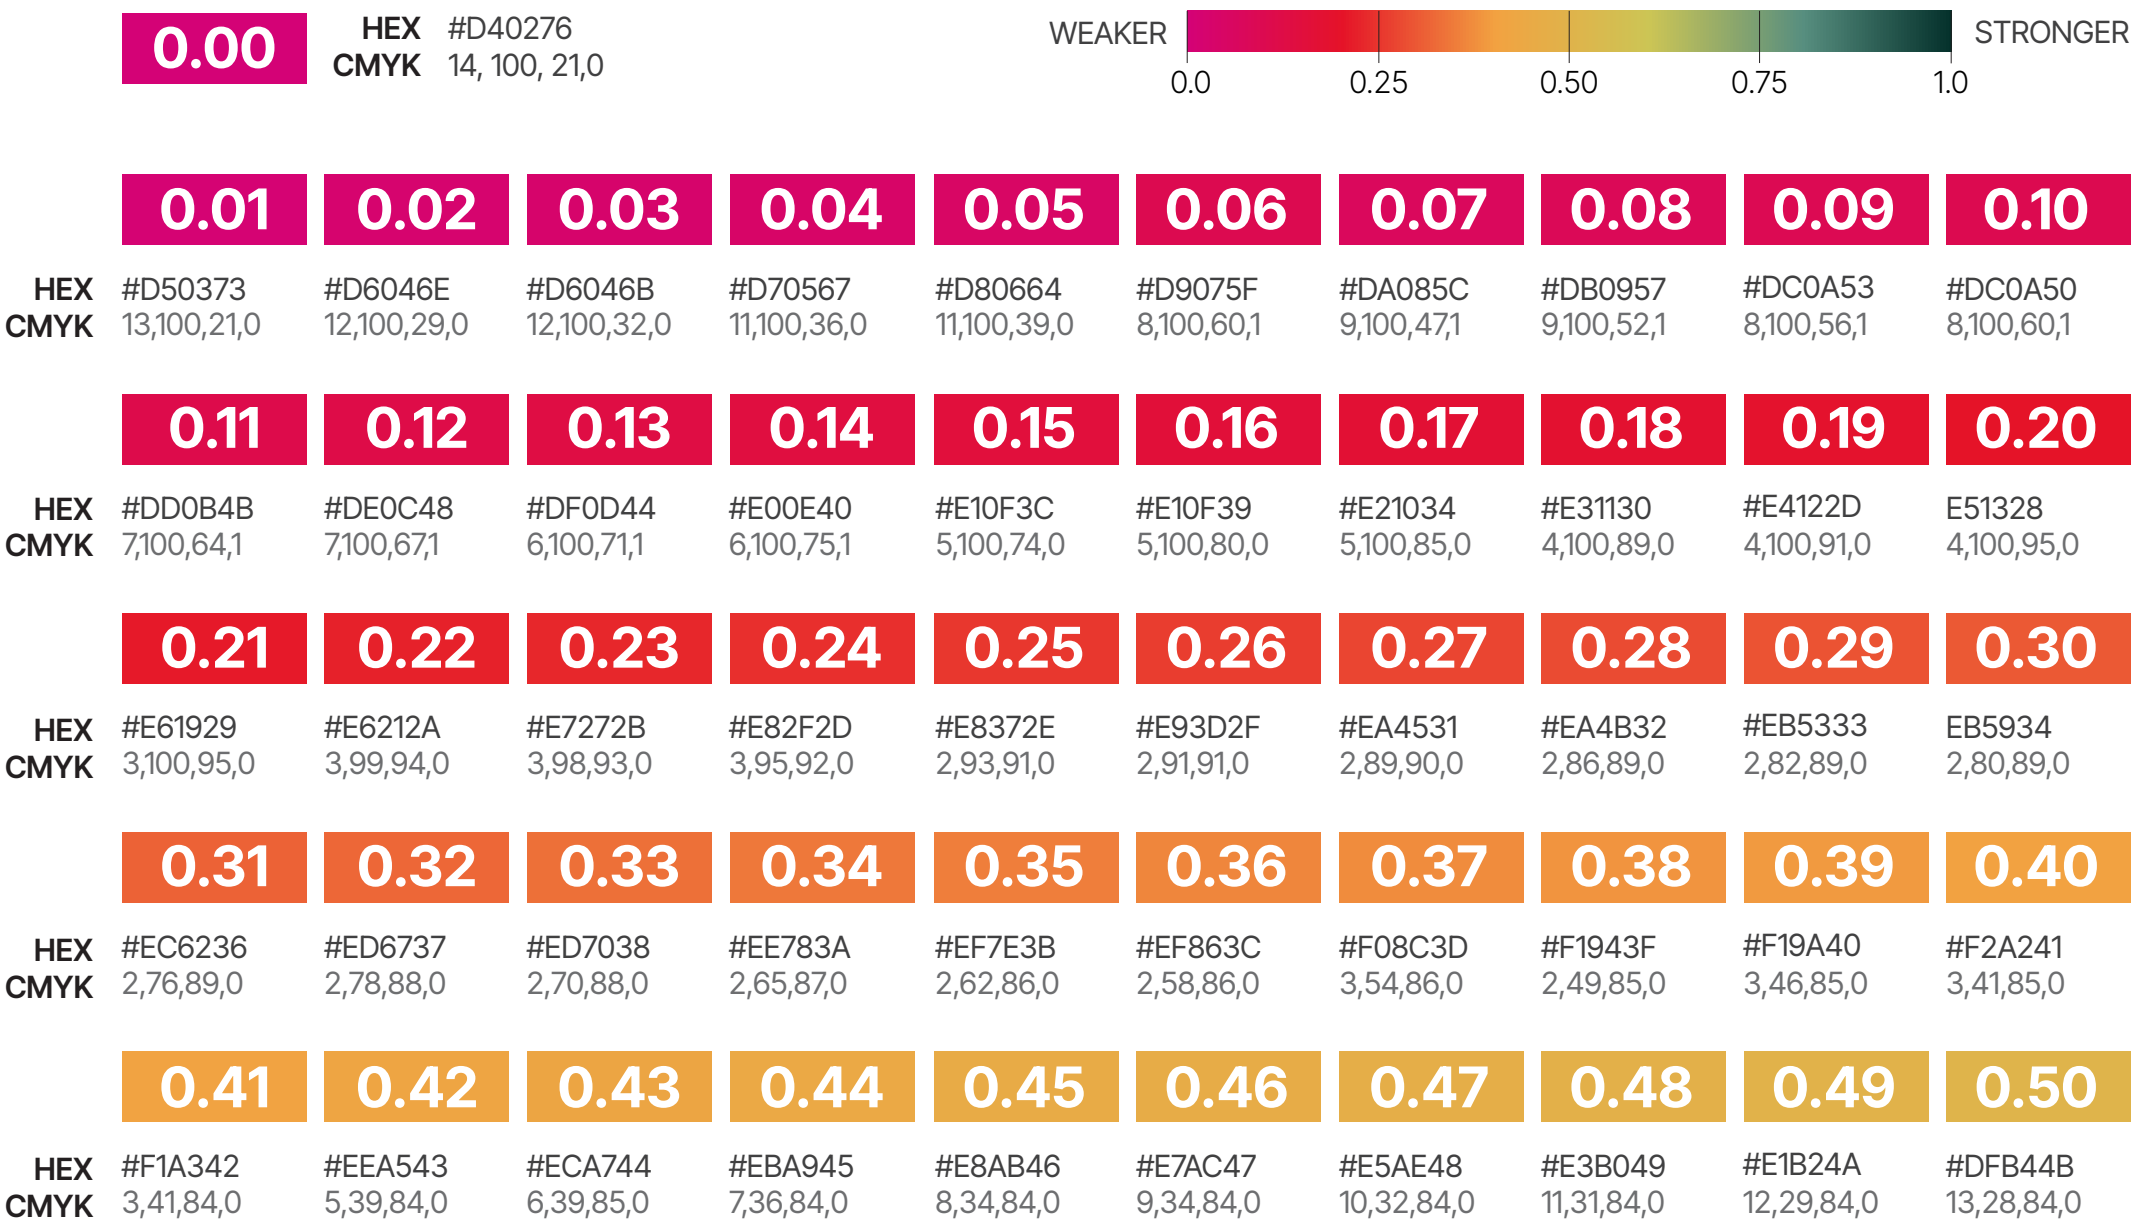

It contains the basic elements that a graph should have when used in different media. The one shown below is a graph from the Insights report and corresponds to an editorial publication.

Colors

ROLI Scores

This palette is best used for situations that require a wide range of intermediate values.

The official ROLI colors are the following; they have been updated in September 2023 and will be used forward. For printing uses use the CMYK codes only.

Colors

	0.51	0.52	0.53	0.54	0.55	0.56	0.57	0.58	0.59	0.60
HEX	#DDB54C	#DBB74D	#D9B94E	#D7BB4F	#D6BC50	#D3BE51	#D2C052	#D0C253	#CDC454	#CCC555
CMYK	14,27,84,0	15,26,86,0	17,24,83,0	17,22,83,0	18,22,83,0	20,20,83,0	20,18,84,0	21,17,82,0	23,15,82,0	23,14,82,0
	0.61	0.62	0.63	0.64	0.65	0.66	0.67	0.68	0.69	0.70

The official ROLI colors are the following; they have been updated in September 2023 and will be used forward. For printing uses use the CMYK codes only. HEX is preferred over RGB.

Colors

Divergent

They are most commonly used to represent opposing concepts, such as weaker/stronger or decline/improve. This palette is useful to represent opposing concepts in a clear way.

Sequential

These are a gradation of colors that go from light to dark. This scale can be used specially when not aiming to represent binary concepts. Use these for ordinal and interval scales.

This scale is commonly use in WJP for Choropleth maps or heatmaps

Example

Colors

Categorical

También mostramos otros datos en nuestros reportes, comparamos países, factores, etc. Para estos tenemos una paleta de colores categórica.

ROLI Percentage Changes

CATEGORICAL

The colors of this palette should be applied in sequence strictly as described below. The sequence is carefully curated to maximize contrast between neighboring colors to help with visual differentiation.

#181878	
#BF02AF	
#3366FF	
#FF4D6A	
#9C89ED	
#226640	
#FFB52B	
#00A8A5	

CONTRAST

Comparing 2 variables.
Select the highest contrast

This combination is fully accesible and curated for daltonism

WORLD JUSTICE PROJECT

Reports

For DAU

DAU team require certain specifications to produce graphs like:

- **Dimensions** (width and height px)
- **Font** (size, style, color)
- **Line**: width, color
- **Colors** of the chart (bars, circles, etc)

Manual

Charts that are full designed by the design team
